XPECTO

IIT MANDI TECH FEST 2026

Orion Astrathon

OFFICIAL RULEBOOK

Dates: 14th to 16th March

INTRODUCTION

Orion Astrathon is a 48-hour Computational Astrophysics Hackathon challenge to tackle real astronomical data problems, showcase innovative solutions and collaborate with fellow space enthusiasts.

EVENT DETAILS

Date : 14th to 16th March
Hackathon Duration: 48 hours
Registration Deadline: 13th March

TEAM STRUCTURE

Teams must consist of a minimum of 2 members and a maximum of 4 members. All team members may or may not be from the same college.

PROJECT GUIDELINES

-The problem statement will be released at 00:00 hrs on 14th March.
-Challenges will be based on publicly available satellite data.
-Participants must develop web or mobile applications utilising the provided data within the given theme.

EVENT STRUCTURE

ROUND-1: IDEA SUBMISSION
Deadline: 20hrs after release of problem statements.
SUBMISSION MUST INCLUDE:
-Project Idea & Problem Understanding
-Proposed Tech Stack
-Implementation Plan / Roadmap
-Initial Project Repository Link (GitHub/GitLab)

ROUND-2: MID PROJECT SUBMISSION
Deadline: 48hrs after release of problem statements.
SUBMISSION MUST INCLUDE:
-Final Code Repository with proper structure
-Well documented README
-Working Prototype / Final Build
-Short Video Demonstration of the Project

ROUND-3: FINAL SUBMISSION (on day 3)
-Teams will present their projects
-Live demo of the solution
-Explanation of approach, challenges & impact
-Q&A with judges
Note: For those participating online and cannot give offline we will have a separate online meet session with the judges.

RULES & REGULATIONS

CODE USAGE RULES:
Allowed: Open-source libraries, frameworks, and public APIs.
Not Allowed: Pre-written code or projects specifically open source for the event.
Plagiarism: Strictly prohibited and will result in immediate disqualification.

GENERAL GUIDELINES

-No new commits should be made after the submission deadline. -All participants must join the official Astrax communication channel (link).
-Rule Violations: Any violations will result in disqualification. -The organisers reserve the right to modify the rules or event structure if necessary.
-All decisions made by the judging panel are final and binding.

EVALUATION CRITERIA

PROJECTS WILL BE EVALUATED BASED ON:
Deployment - Whether it is deployed on servers.
Completion - Runs properly without bugs.
Creativity - Novelty and uniqueness of the idea.
Proper Documentation - Proper citation of each open source repository used.
Real-World Use Cases - Practical impact and feasibility of the solution.

CODE OF CONDUCT

RESPECT & INCLUSIVITY
Treat all participants, mentors, and organisers with respect. Harassment, discrimination, or inappropriate behaviour of any kind will not be tolerated.
FAIR PLAY & INTEGRITY
All submitted work must be original and developed during the hackathon. Plagiarism or pre-existing projects will result in immediate disqualification.
Teams must not sabotage or interfere with other participants' projects.
PROFESSIONAL COMMUNICATION
Maintain professional and constructive communication in all hackathon related discussions.
Use the official Astrax communication channels responsibly.
ETHICAL USE OF TECHNOLOGY
Projects must adhere to ethical and legal standards.
No malicious software, unauthorised data access, or harmful applications are allowed.
COMPLIANCE WITH EVENT RULES
All deadlines must be met, and submission guidelines must be followed. Any rule violation may result in disqualification at the discretion of the organisers.
By participating in the Astrax Hackathon, you agree to follow these guidelines and contribute
to a positive experience for all.
